

Course Regulations Descriptive Geometry 2

First Degree (B.Sc.) studies, academic year 2022/2023

Course on Descriptive Geometry 2 (DG 2) at the Faculty of Civil Engineering is organized during the second semester of First Degree (B.Sc.) studies. It consists of lectures (15 hours) and project meetings (15 hours).

1 Attendance at the course

- 1.1 Lectures – attendance is recommended.
- 1.2 Tutorials – attendance is obligatory. Absence from three, or more, meetings may result in dropping the student from the course roster. A student who is late for the project meeting (15 minutes or more) is considered absent.

2 Verification of learning outcome

- 2.1 Learning outcome is verified by worksheets and a theory test.
- 2.2 Worksheets regard the problems considered during the in-class meetings and take the form of:
 - exercise worksheets,
 - mid-term worksheets completed during the in-class meetings under the supervision of the tutor,
 - test worksheet completed during the in-class meetings as student's own work.
- 2.3 Worksheet completion dates are announced by the tutor.
- 2.4 Worksheets are graded according to the scheme in the table below:

worksheet form	number of worksheets	points awarded for a single worksheet	maximum number of points available during the semester
exercise worksheet	10	0-4	40
mid-term worksheet	3	0-10	30
test worksheet	1	0-30	30
			Sum of points = 100

- 2.5 Theory test regards all topics discussed during the course.
- 2.6 Theory test is graded from 0 to 10 points.
- 2.7 Theory test is organized in two terms: during lecture no. 15 (regular term) and during the summer exam session (resit term).

3 Grades

- 3.1 Grade for the tutorials depends on the number of points awarded for the worksheets.
- 3.2 Grade for the lecture depends on the number of points awarded for the theory test.
- 3.3 Grades for the tutorials and lecture are set independently from one another according to the scheme in the table below:

tutorials						
points	less than 50	51-60	61-70	71-80	81-90	91-100
grade	2.0	3.0	3.5	4.0	4.5	5.0
lecture						
points	less than 5	5.0-5.5	6.0-6.5	7.0-7.5	8.0-8.5	9-10
grade	2.0	3.0	3.5	4.0	4.5	5.0

- 3.4 Overall grade is set as a weighted mean of pass grades (at least 3.0) for the tutorials and lecture,
$$\text{overall grade} = 0.8 * \text{grade for tutorials} + 0.2 * \text{grade for the lecture},$$
and next rounded off to the nearest 0.5. Fail grade (2.0) for the tutorials or lecture results in fail overall grade.

4 Additional information

- 4.1 Grades for worksheets are announced to students in a form decided by the tutor.
- 4.2 Grades for tutorials, lecture and the overall grade are announced to students via the USOS system.
- 4.3 Students are granted access to graded worksheets and tests in a form decided by the tutor or the lecturer.
- 4.4 Grades obtained in previous completions of the course may be considered in its present completion by the supervisor of the course.

5 Final provisions

- 5.1 Students pursuing the DG 2 course are obliged to read the course regulations. Comments may be submitted to the course coordinator until 6.03.2023. After this date, course regulations are deemed to be known and accepted by all students of the course.
- 5.2 These regulations may be amended with the consent of the majority of students taking the course.
- 5.3 Other issues unmentioned in these regulations should abide by the Academic Regulations of the Warsaw University of Technology.
